

JORDAN ARAUJO

Staff Front End Software Engineer | Web Technologies

+1 484 550 6863 @ jordanaraujo313@gmail.com Boston, MA

ACHIEVEMENTS

✎ Improved Page Loading Times

Implemented performance optimizations that resulted in a significant decrease in page loading times, improving user experience and reducing bounce rates.

★ Increased User Engagement

Introduced new interactive features or redesigned UI elements that led to a measurable increase in user engagement metrics such as time on site, page views, or conversion rates.

🛡️ Cross-Browser Compatibility

Ensured seamless user experience across different browsers and devices by addressing compatibility issues and implementing responsive design principles.

✎ Streamlined Development Processes

Implemented efficient development workflows, such as automation of build processes or integration of continuous integration/continuous deployment (CI/CD) pipelines, resulting in faster delivery of features and improved team productivity.

SKILLS

NextJS • HTML5 • CSS3 • JavaScript •

Angular • Vue.js • Responsive Design •

Git • Node.js • Express.js •

UI/UX Design Principles • ReactJS •

JavaScript • TypeScript

SUMMARY

Seasoned Senior Frontend Developer with over 8 years of experience specializing in application development. Skilled in HTML, CSS, JavaScript, and proficient in frameworks like React Native and Flutter. Strong background in creating intuitive and performant mobile applications for both iOS and Android platforms. Proven track record of leading development teams, optimizing code for efficiency, and delivering robust, high-quality software. Passionate about leveraging cutting-edge technologies to enhance user experiences and committed to continuous learning and professional growth. Excellent collaborator, known for effective communication and ability to work seamlessly with cross-functional teams to drive project success.

EXPERIENCE

Senior Front End Developer

01/2019 - Present

Atlassian

Sydney

- Led a team of 8 developers in building responsive web and mobile applications using React, React Native, and TypeScript, resulting in a 30% increase in user engagement.
- Spearheaded the migration of legacy codebase to modern frameworks, improving load times by 50% and enhancing maintainability.
- Collaborated with UX/UI designers to implement user-friendly interfaces, contributing to a 25% boost in user satisfaction scores.
- Conducted code reviews and mentored junior developers, fostering a culture of continuous improvement and knowledge sharing.
- Implemented automated testing with Jest and Cypress, reducing bugs in production by 40%.

Frontend Developer

10/2017 - 11/2018

Nutanix

California

- Developed interactive, high-performance web applications using Angular and Vue.js for clients in e-commerce, healthcare, and finance industries.
- Optimized website performance by implementing lazy loading and code splitting, reducing page load times by 45%.
- Worked closely with backend developers to integrate RESTful APIs, ensuring seamless data flow and synchronization.
- Led the implementation of a component library, standardizing UI elements and streamlining development processes.
- Delivered projects on time and within budget, consistently receiving positive feedback from clients for technical expertise and communication skills.

Frontend Engineer

02/2015 - 08/2017

Kanda Software

Boston

- Built and maintained responsive websites using HTML5, CSS3, and JavaScript, adhering to best practices and web standards.
- Introduced version control with Git, improving code management and collaboration across the development team.
- Enhanced website accessibility, ensuring compliance with WCAG guidelines and improving usability for all users.
- Collaborated with marketing and design teams to implement A/B testing, leading to a 20% increase in conversion rates.
- Provided technical support and training to team members, enhancing overall productivity and technical knowledge.

EDUCATION

Master of Science in Computer Science

09/2010 - 08/2014

Suffolk University

Boston, MA
